FORM  
FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

about 1/4 of a mile away. James viewed it from about 500 feet away at his closest vantage point. The object traveled in a 45° position about 15 feet over the ground. He stated to have a dull non-reflective finish. Its edges were blurred, hiding from onlookers sight, although a crude outline could be plainly seen like a saucer. The object seemed to have a slight hue near the rear. James was facing ESE when viewing the object. He noticed a second light faint behind the out of a "balloon" coming from the object. Almost as soon as he noticed and got off his bicycle the object started to edge from his horizon to an upright position. The light had been about 100 feet above the object. When the object rose about 100 feet its light grew brighter. After the object rose and took flight, James lost sight of the object both through and above the trees and bushes. The object moved away into the dark.

## TESTIMONY

James impressed me as being a very nice sincere boy. I received no information from James that he was telling the truth. He had called the police many after his sighting. They mistook him for his brother. When I checked with the police they confirmed his phonecall and their sending a cruiser to investigate. When they got there the object was gone. The police told me that a woman picked them about a mile off in the same area later on that evening but she refused to give them her name. They told me that the U.S. Coast Guard had received many calls concerning the object. I phoned the Coast Guard. They informed me that they had received calls of UFO Sightings in the area that night and asked me to give out the telephone addresses of the witnesses. I called and told the Coast Guard where to relay all UFO reports to witness and I phoned the FBI and they told me they had nothing to do with this case. I phoned the FBI again on the chance there was some missing information about the object and apparently no one did.

James had read a few articles on UFO before but not extensively. He described right from James, the suspension, the swaying motion as is reported, the single glowing point, these are all typical UFO characteristics. The fact that the Coast Guard admitted receiving calls from other witnesses is a quite point as well as the unknown woman witness informed the police. It is strange that James did not remember seeing the object. James seemed to be very sincere and factual in his report. He was not aware that others had seen the object. Overall speaking I think that the weight of the evidence points to a genuine UFO sighting. I am not sure that the Coast Guard would not release more information if the public admission of receiving many calls from other witnesses would add weight to this sighting. If further information will be had I will send you an addendum.

Washington 6, D. C.

AIRCRAFT AND IDENTIFIED FLYING OBJECTS

As you are asked by the Office of Space, A. Force and by other Armed Forces' investigating agencies, and additional  
information and data for full evaluation by NICAP  
has been and is being studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly  
scheduled publication. Please try to get as many as facts as possible. Should you need additional room,  
merely offset it. Please print or type out. Your assistance is of great value and is genuinely appreciated. Thank you.

[REDACTED] (Age 16)

Place of Employment

Occupation **Student**

**Salem, Massachusetts**

Education **Junior Year**  
Special Training **St. John's Prep.**  
Military Service **Danvers, Mass.**

Date of Observation **2 October 1965**

Time **8:20 AM** **AM** Time Zone **EDT**

City of Observation **Salem, Mass. \*\*\***

**then corner**

How long did you see the object?

Hour **5** Minutes **5** Seconds

Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc. **A few Cirro-  
Cumulous clouds.**

Position of the Sun or Moon in relation to the object and to you. **Don't remember seeing moon.**

At what height, twilight, or dawn, were the stars or moon visible? **Saw some stars**

Did you see more than one object? **One** If so, please tell how many, and draw a sketch of what you saw, indicating  
location of separation, if any.

**Moved off into SSW after hovering 5 minutes.**

Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving,  
etc. Please describe the size of power, if necessary. **Solid/Cigar-shaped-Two white lights,  
one on each end-had hump near back.**

Was the object(s) brighter than the background of the sky?

**Lights were**

Was the object(s) bright with the body, tail, etc. lights, etc. **Dark shape silhouetted**

Did the object(s) ...

(Please elaborate, if you can give details.)

a. Intent to land, etc. at any time? **Hovered in 45° position-swayed a little**  
b. Suddenly move or drift away at any time? **Rose 100 feet slowly, lights went out**  
c. Break up this pattern except? **no**

d. Give off smoke? **no**

e. Give off noise? **no**

f. Give any gas? **no**

g. Change engine? **no, but lights flickered when it started moving**

h. Change shape? **no**

i. Change color? **no**

j. Color - **Dark**

In what direction(s) did the object(s) move? **SSW** **anything? If so, please elaborate giving distance, size/etc., if possible.**

Was there any vibration? **???** **If so, please give reaction and speed.**

Did you observe the object(s) through an optics, or a mirror or other aid, windowpane, storm window, screening,  
etc? **Eyeglasses and over eyeglasses.**

Did you hear, etc., any sound? **Yes** **What kind? Like air being let out of toy balloon.** **very soft**

**Edges blurred hiding exact shape although a crude  
outline could be plainly seen like a cigar.**

UFO hovered over N.E. Power Station, 24 Fort Ave., Salem, Mass.

What color was it?

Gold - seemed a dull finish

Re-Teering?

Transparent?

Did the object fall with an impact? When assumed 45° position it rose about 100 feet, lights went out, disappeared from sight.

What was the size of the object(s) when it(s) was held with the following held at arm's length:

a. Pinhead  
b. Pea  
c. Dime

d. Nickel  
e. Half dollar  
f. XX Silver dollar

g. Orange  
h. Grapefruit  
i. Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

How did you happen to notice the object(s)? Riding bicycle-saw lights and dark shape between lights-rode within 500 feet of station to investigate-moved off just as I drew near. It hovered 15 feet from stacks of plant.

Did the object(s) disappear from view?

Into darkness when lights went out.

Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. ?????

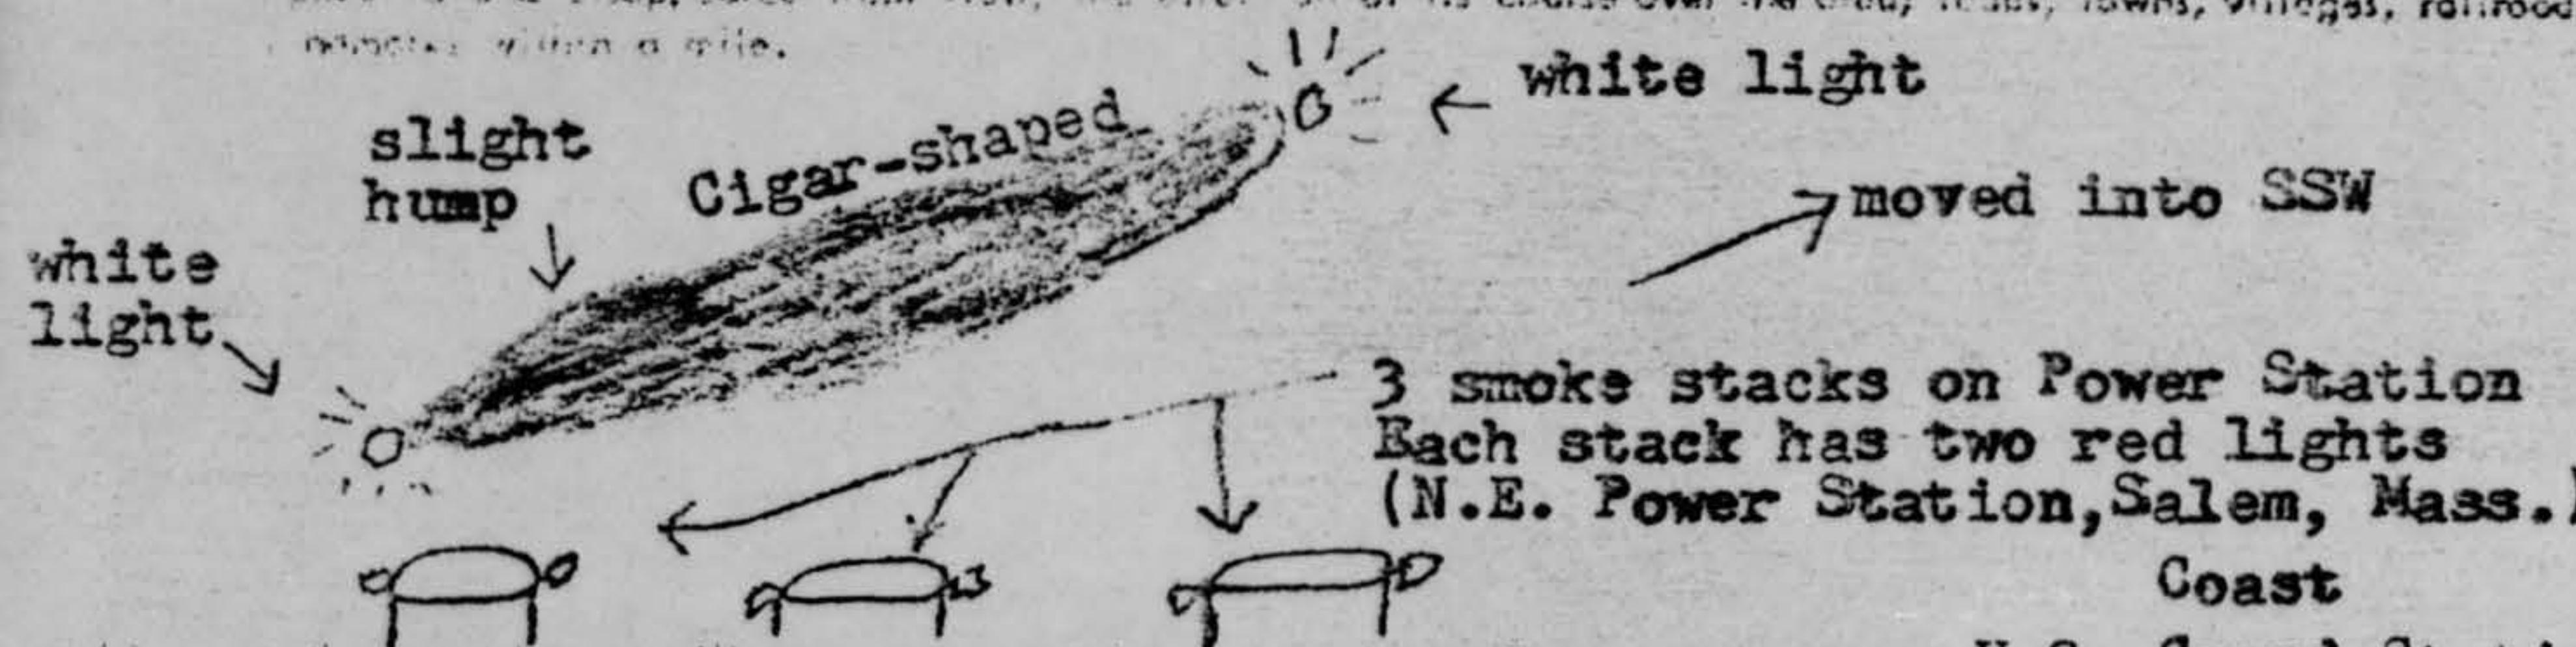

Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate. No

Please estimate the distance of the object(s). 1/4 mile 1st & then 500 feet.

What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

Names and addresses of other witnesses, if any. **Investigator's note=Coast Guard received several UFO reports which they referred to USAF-Names withheld.**

Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) passed and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

Is there an airport, military, governmental, or research installation in the area? U.S. Guard Station

Have you seen other objects of an unknown nature? If so, please describe them, observations, using a separate sheet of paper. **Saw lights over Power Plant the previous evening-did not investigate.**

Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observation, or any other background material. We will return the material to you.

Have you interviewed by Air Force investigators? by any other federal, state, county, or local officials? If so, please state the name, rank or title of the agent, his office, and details as to where and when the questioning took place.

Have you ever been told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please list and describe.

I would like permission to give your name in connection with this report. This action will encourage other responsible persons to report similar observations to NACA. However, if you prefer, we will keep your name confidential. Please note that in reporting the present situation, it is advised in any case, please list in all parts of the form, for our own confidential use, the name of your organization.

Do not use my name.

Please keep my name confidential.

No Case, Information Only  
Source: Saucer News, Vol. 12, No. 4  
Dec 65

Southing, Connecticut  
2 Oct 65

**SAUCER LANDING IN CONNECTICUT:** Just before press time, we learned of a sensational incident that occurred on the nights of October 2nd, 3rd, and 4th, in Southington, Conn. A local youth named Ronald Rubenstein saw a UFO low over his car on these three consecutive evenings. On one night it was hovering only 50 feet above him. He described it as being  $2\frac{1}{2}$  car lengths in diameter, and  $3\frac{1}{2}$  car lengths long. It had a "corrugated bottom," and numerous lights, including four "porthole type lights" on the dome. After several seconds it swooped away and landed on a high hill about a mile away.

A search of the hill by news reporters a few days later disclosed a charred area on a ridge overlooking the countryside.

Rubenstein took a picture on one of the occasions, but it shows only a white spot at some distance from the camera, against the night sky.

South America  
4 October 65

Throughout October, November, and December, dozens of UFO incidents continued to occur throughout South America, especially in Argentina. Among the most startling was an incident reported on October 4th, concerning three children who claimed they were almost abducted by small humanoid creatures while on their way to school. This occurred in Salta. A similar incident took place at about the same time in Santiago del Este, where a gigantic creature disappeared "enveloped in a cloud of dirt" before the eyes of several children who had gone to get water from a dam. In neither of these cases was a flying saucer seen, according to our information.

Mrs Hunt/sh/SAFOICC/72842/11 Jan 66

Dear Mr. [REDACTED]

I apologize for the delay in answering your letter regarding unidentified flying objects.

I am inclosing a copy of the report on Project Blue Book, the Air Force UFO project. This report contains information on our project since its origin in 1948.

Articles such as those published by you in the Napa Register on October 7 and 8 do much toward placing this unusual phenomenon in its proper perspective.

Our case files for 1965 were screened for sightings from the San Francisco area. Multiple reports were received from Hamilton Air Force Base. These reports originated from Walnut Creek, San Rafael, San Francisco, Pleasant Hill, and the surrounding area. They were evaluated as satellites and various observations of stars and planets.

Photographs of UFOs are submitted to the Air Force for evaluation only. The original negatives and prints are returned to the owners. Permission to use these prints and pictures must be obtained from the owners. As of this date, the objects in photographs which have been submitted to the Air Force for evaluation have been identified as known natural or convention objects such as aircraft, balloons, stars and planets, lens flares, emulsion flaws, light cracks in the camera, and reflections.

Thank you for your letter and for your interest in Air Force matters.

Sincerely,

1 Atch

SUBJECT: Request for UFO Information, [REDACTED]

TO: Hq USAF SAFOICC (Mrs Hunt)  
Wash D C 20330

Reference the attached letter from [REDACTED] reporter for  
the [REDACTED]. The following is a suggested reply:

a. Dear Sir,

The enclosed fact sheet is provided as general information on the results of Project Blue Book. This brochure explains the success of our investigations since its inception in 1947.

Articles such as those published by you in the [REDACTED] on Oct 7 and Oct 8 do much toward placing this unusual phenomenon in its proper perspective. The case files for 1965 were screened for sightings from the San Francisco area. Multiple reports were received from Hamilton Air Force Base during the period 4 to 8 Aug 65. These reports were from Walnut Creek, San Rafael, San Francisco, Pleasant Hill and the surrounding area and were evaluated as a satellite and various observations of stars and planets. Mars, Arcturus, and Venus were the major astronomical objects observed.

Photographs of UFOs are submitted to the Air Force for evaluation only. The original negatives and prints are returned to the owners. Permission to use these prints and pictures must be obtained from the owners. As of this date, no photographs have been submitted to the Air Force which have not been identified as known or conventional objects such as aircraft, balloons, stars, etc. Also, evaluations include lens flares, emulsion flaws, light cracks in the camera, reflections, etc. Names of UFO witnesses are not released by the Air Force. However, if the name of a witness is released through other sources such as newspapers, books, or magazine articles, the name is regarded in the field of public domain and can be used in association with UFO reports.

YOU - THE NUCLEUS OF SECURITY!

Oct. 8, 1965

# Balloon, Or?

Title: "The Saga of Flying Objects."

Scene: The office of a Napa Medical Group doctor on Lincoln Avenue. The time is 3 p.m. Wednesday.

Action: Dennis Roberts, 6, is about to leave the doctor's office with his grandmother when the physician rewards him for submitting to medical ministrations by handing the youngster a large balloon filled with gas—red on one end and white on the other.

Dennis walks out on the street, lets go of grandma's hand and lets go of the balloon.

Dennis: "Shucks."

Grandma: "Look, the atmosphere certainly makes the balloon way up there look weird. It's floating over Bel Aire and up toward Calistoga!"

Dennis: "Shucks."

Scene: Near a home in the Bel Aire section. The time about 3 p.m. Wednesday.

Action: Housewife and others see what they can hardly believe—a revolving flying object at about 3,000 feet headed for Calistoga. The oblong object was red on one end and white on the other end, and had no wings.

Some thought the flying object might have come from outer space because it made no sound, indicating it could be powered by magnetic force.

Scene: The Napa Register office Friday morning.

Action: Voice that does not wish to be identified reports Thursday between 3 and 3:30 p.m. saw an oblong object without wings, that made no noise, silver colored, and was red on one end.

Voice states the object coming south from Calistoga, veered over Las Amigas area then south in direction of Napa County Airport.

Problem: Was there any connection between the visit to the doctor's office and the sighting Wednesday? Did some other youngster go to the doctor yesterday? Or, are the incidents absolutely unrelated? No one seems to know for certain, but there are no other explanations at this time.

## Flying Object Seen In Area

A flying object "that had to be from outer space" was sighted over Napa about 3 p.m. yesterday a housewife and a television repairman who is also a pilot.

Weston Moser, owner of the Television Center, 1601 Lincoln Ave., was repairing a set at a home in the Bel Aire section of Napa when a woman called him outside to verify what she could hardly believe.

Moser said the silver object was traveling north toward Calistoga at about 3,000 feet. He estimated its speed at between 350 and 500 miles per hour. The wingless craft was roughly about 15 or 20 feet long and oblong in shape, he said.

The clincher in Moser's belief the unidentified flying object was from another planet was the fact that there was no sound.

"This means it must have been propelled by magnetic force," Moser reasoned. "It couldn't have been jet or gas powered, and we can't propel aircraft by magnetic force yet."

"It had to come from some place and it was not made here on earth," he concluded.

Moser did not think what he saw was a military craft. He did not see any lettering on the body of the object.

The woman, who got the first look at the UFO, said the saucer was revolving, and that one end was red and the other end white.

She reported the incident to The Napa Register and the police department, but asked that she not be identified.

ERIC T. de JONCKHEERE, Colonel, USAF  
Deputy for Technology and Subsystems

[REDACTED] NAPA, CALIFORNIA [REDACTED]

Air Technical Center  
Wright Patterson Air Force Base  
Wright Patterson Air Force Base, Ohio

Dear Sirs:

There have been some unidentified flying objects sighted by residents in the Napa County, California area. The office would like to know if there have been previous sightings in the San Francisco Bay area or Napa County area in the past few years.

We have notified Hamilton Air Force Base, Marin County and officials there have referred us to your office for further details.

Also, any information that would be forwarded to our office that would enlighten the general public as to how to report such sightings, what to look for, etc., would be of help. Any formal reports from this area that could be sent would be appreciated. Also, if your office has any photos that could be used would aid in an article for the paper.

Enclosed are some clippings from the paper, The [REDACTED] on the sightings. Any comment referring to the clippings would help us in reporting such events accurately.

Thank you,

[REDACTED]

SOUTH BAY

# Daily Breeze

THE ONLY DAILY NEWSPAPER IN THE SOUTH BAY AREA

Friday, C

## The Sky is Full of Mysteries

Gary Gillis, Daily Breeze photographer, didn't see the object until he printed the photo, but there it was just above the heads of two girls in a routine pic-

ture. The bottom photo is a blown-up section of the sky showing the strange object. Is it a flying saucer?

# UFO Crossing South Bay Skies?

*bit wet & grainy? said it was?*  
Routine Photo, Then...

## A Bright Spot Appears

"I was developing these negatives from a shooting assignment in Lomita," Breeze photographer Gary Gillis said, "and it showed up on the negatives."

"What showed up?"

"At the risk of sounding foolish, it looks kind of satcer-shaped."

Whatever Gillis picked up in the picture is shown above, for you to decide for yourself.

The photographer said he saw nothing

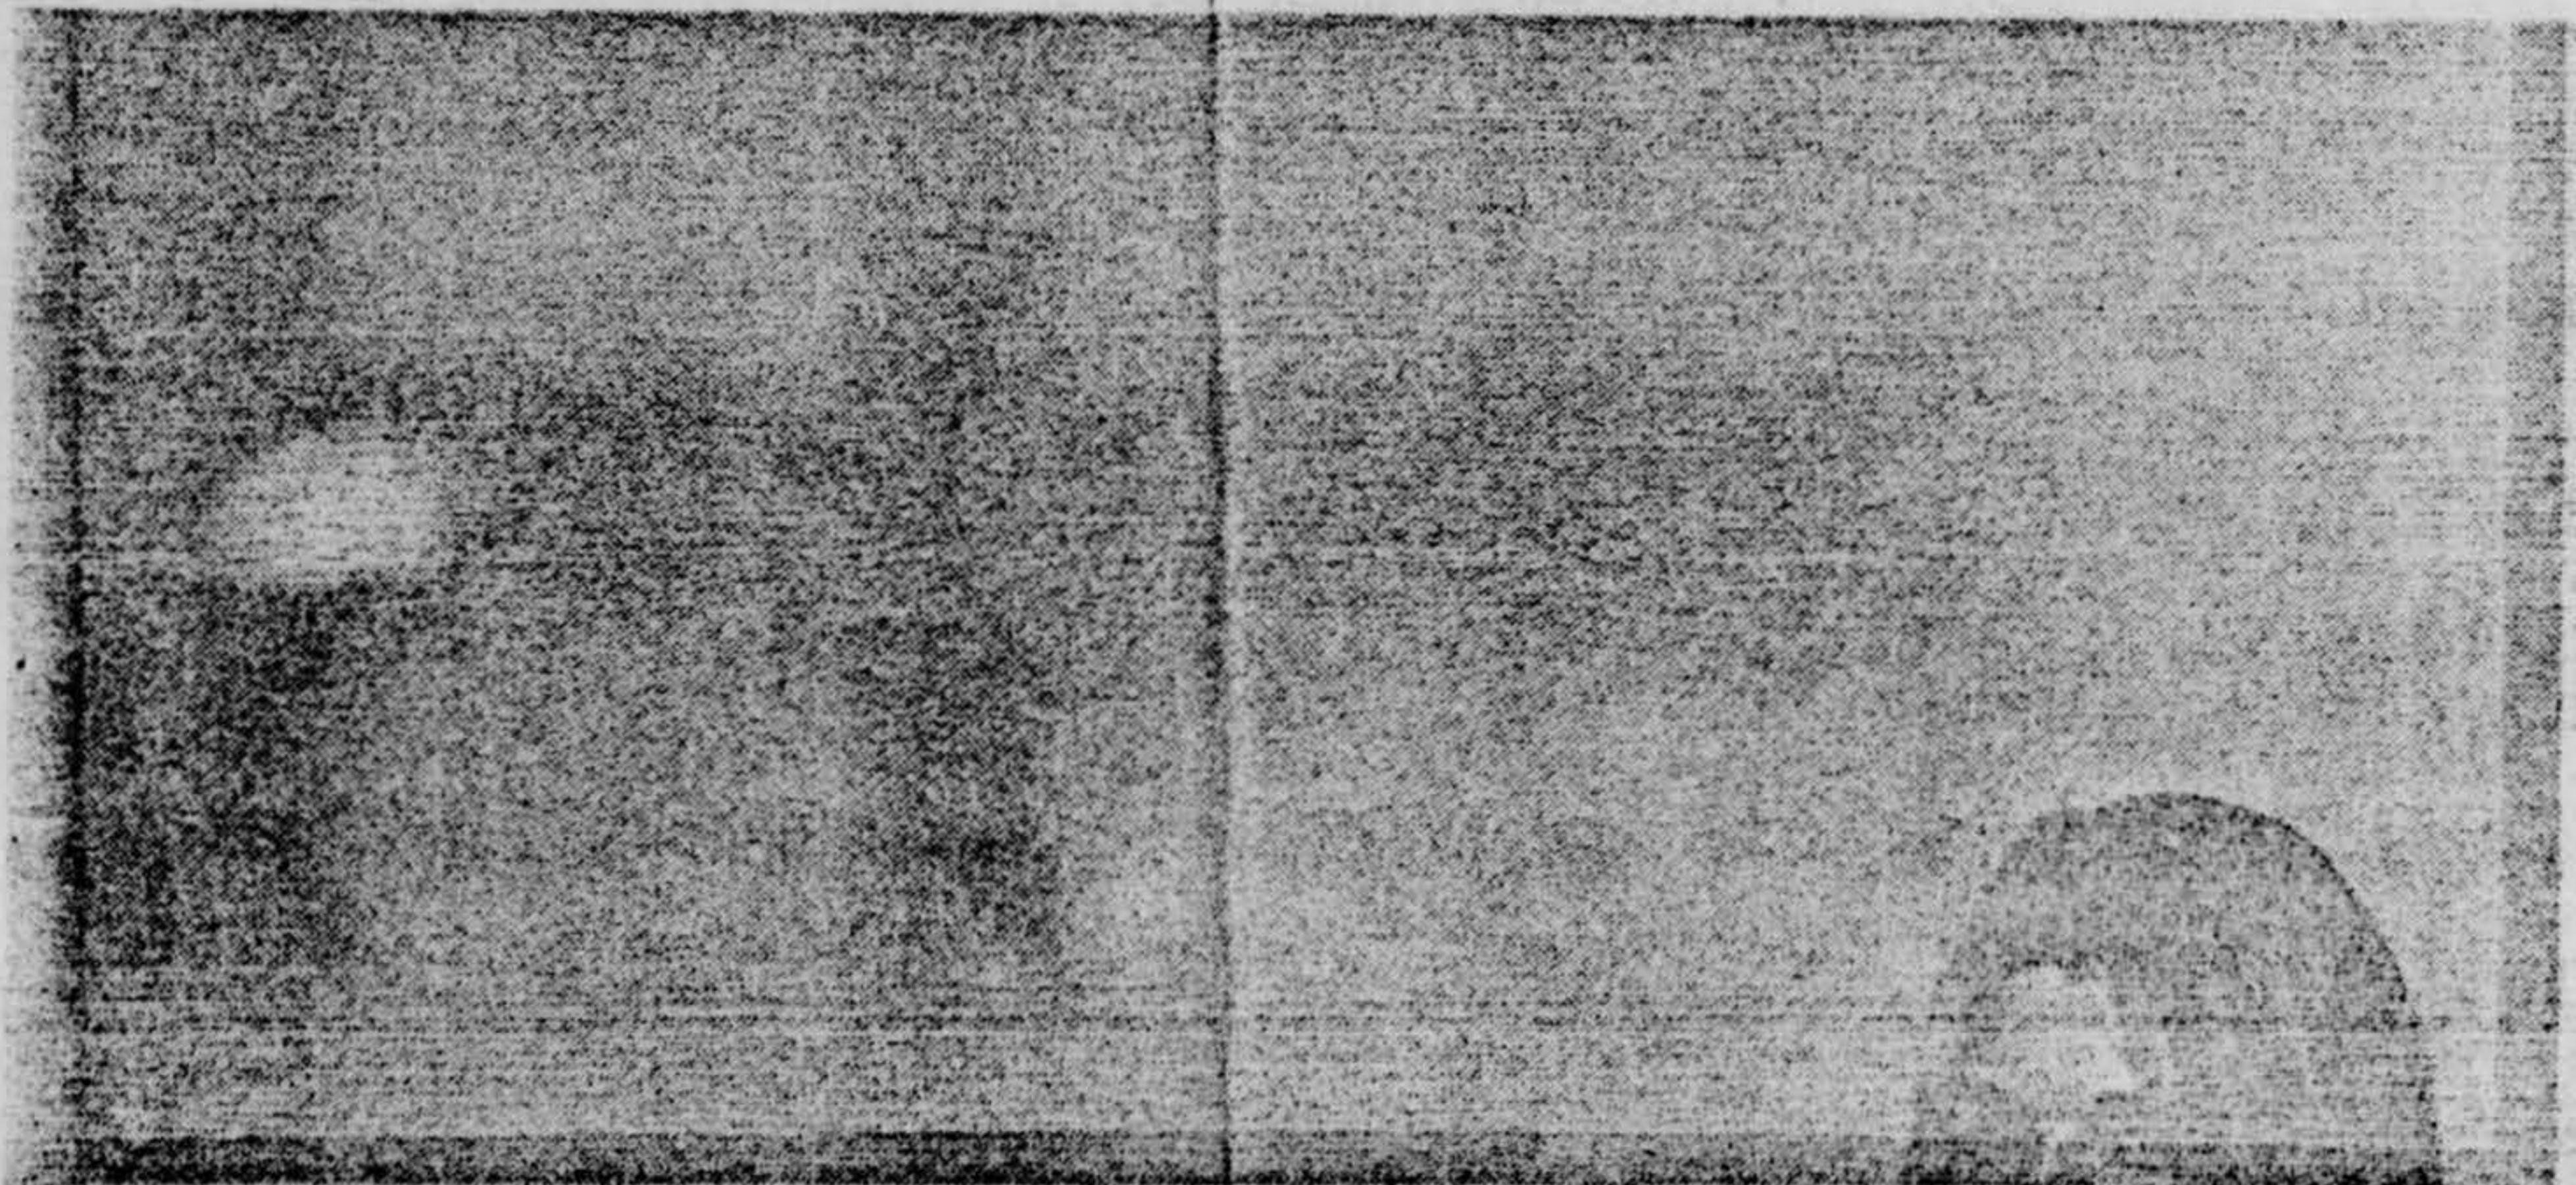

while shooting the pictures, and that to his knowledge no fluke in the developing process would leave the above image.

The picture was shot with a twin lens reflex camera at 1/250th of a second at f/16.

Is it a bird, a plane, or . . .

We don't know.

Oh, by the way, the girls are (from left) Trina Sagers, Toni Gray, Evelyn Rodriguez, Toni Villani and Carol Weston. All are contestants in the Miss Lomita-Harbor City Beauty Pageant.

FLYING SAUCER INVESTIGATING COMMITTEE

Regular Meeting ---First Friday of each Month --- 8:30 P.M.

November 5, 1965 --- Central Y.M.C.A. on Center & Bowery Streets - Akron, O.

SIGHTINGS

Several sightings have been reported to F S I C during the month of October. Information is continuing to come in relation to the summer sightings, and the reports have continued into the fall months.

N.I.C.A.P. Investigators in the Pittsburgh, Pa., area have completed an investigation of a photograph of a U.F.O. taken in Beaver County, Pa., on August 8th. It's a night photo; it shows a disc-like object with a tapering trail which extends down toward the trees over which it maneuvered. The trail was not visible to the to the witnesses. The picture was declared genuine by three professional photographers. The picture was taken from an estimated one-fourth-mile.....

DAYLIGHT

Locally, a daylight sighting was made by two employees of Columbia Chemical of Pittsburgh Plate Glass Co, in Barberton, O. (16th St.)

The time was 1045 A.M. on Friday, the 30th of October, 1965. The day was clear and mild. Gerald Lucart and Ernest Krasovic were working outdoors in the yard. They stopped to admire a high-flying jet that was trailing a long vapor trail.

A few moments later, as they crossed a part of the field, Lucart pointed to a place considerably lower than the jet-trail and asked Krasovic what it was he was seeing. Krasovic didn't see it immediately but then both men were observing a clearly outlined, very shiny bright, chrome-like ball. It came out of the north and approached until it took a stationary position at an elevation of 20 degrees. It remained in that position for from 11 to 15 seconds. It then changed shape and became a long narrow cigar-like object tapering from its middle to the rounded ends of the object. Suddenly after the elapsed time aforementioned, it accelerated away in a matter of from 4 to 6 seconds!! Lucart tried to alert welders some yards away but was apparently unsuccessful. It disappeared into the N.E. - losing none of its elevation in relation to the horizon. Around 11:30 A.M. both men related that the sky was full of vapor trails made by criss-crossing planes in the same area the object had been in. This was also verified by other alert watchers in the Akron area. This lasted until 3:00 P.M. Both men declared that a camera would have recorded a picture. An estimate at altitude by Lucart was, 8,000 feet. Krasovic estimated its distance at 8 to 10 miles.

The object's intense brilliance did not change during the shape-changing maneuver. Both men were at a loss to explain its stationary position, its meteoric speed, its lack of aerodynamic features, and its extreme reflectivity or luminosity. No sound, trail etc was noted. No details marred its smooth surface.

On August 11, 1965 at 6:50 P.M. Gary Tolz reported seeing a clearly outlined round object he could not identify. It had a dull silver color. It came from the area of the sun and took only 8 seconds to move from an elevation of 30 degrees to a position almost overhead. He was driving on East Ave. near Battles Ave. Its path was generally S.W. to N.E...

On July 18, 1965, at 2:00 P.M., Joseph Bralok was driving N. on Brown St. near Cole & Lovers Lane. The day was clear and cool with a few clouds. Through his windshield he saw silvery, round object. Its size was "like a dime in the sky", said Bralok. He stopped his car, got out, but there was nothing there to see, not even an airplane.

Cleveland, O. -- Oct. 9, 1965 -- (1) 8:40 P.M. -- Round disc with rotating lights on edge -- seen under cloud layer-drizzle (2) 10:00 P.M. - triangular shape - 42 tel. calls --

FLYING SAUCER REVIEW  
Jan-Feb 66

9 Oct 65  
Tours, France

**FRANCE**  
**Looping UFO**

*Le Maine Libre* of October 11, 1965 carried the following account: "Shortly before mid-day on Saturday (October 9), a machine in the shape of a plate was seen in the sky over Tours (Indre et Loire) by four persons.

"One of the witnesses explained that as he was leaving his office, he had seen the object in the sky, and had immediately called three of his colleagues who, like himself, watched it manoeuvre.

"It is impossible to say how surprised we were, for never for a solitary instant did we think there was any question of its being an aircraft," he explained. "We were unable to see more than a point in the sky, for it was at a great height. The flying saucer executed several loops, and we saw that one side was silvery and the other side black. Then, at a dizzy speed, the machine made off towards the north." (Trans. C.B.)

Berlin, Connecticut  
12 October 1965

On October 12th several Connecticut newspapers published a UFO photo taken at about 2:45 p.m. the previous day by a Berlin, Connecticut boy, named Roger Labas. The boy was doing schoolwork when he heard a humming sound which later increased in intensity and became a high pitch. After spotting the strange-looking object, he rushed indoors again for his camera, and took a fairly clear picture before the whirling craft climbed rapidly upwards into the sky and disappeared. The boy said that he saw things on it that looked like periscopes, and that it was traveling about 700 miles per hour.....

WYTHE FIELD,  
MIAMI

Hi --

A bunch of us say the strangest thing last night. We've been trying to figure out if we should call the Air Force or just drop it or just keep it to ourselves. Help!

Sue and Dave and I had just left Goodhue after dinner at about a quarter of six. We crossed the bridge and were on the south side of the lakes admiring the bright star-like thing that's been seen, which the astro prof says is Venus.

We turned left (to the SE) to take the road up to Housers where we saw this thing at about 5:50 pm. It was right next to Evans (well, actually it would be back a ways) even with the third floor about 20° up from the horizon.

At first it was very faintly blinking about 3 red lights--very sharp and irregular. As we watched, the lights got much larger and brighter and more of them-- was the thing coming toward us possibly? If it was, it was probably coming sideways, what we saw later makes us think. The lights were mainly red and white, the Sue and I saw 2 or 3 green flashes right at first. Dave didn't, but he seems to have a slight green color blindness.

The lights all the time we watched it were never like plane lights. Plane lights are soft and fuzzy, sort of, but you can usually pick out the 3 or 4 lights. These lights were very bright and glaring, sort of like ~~X~~ instead of ~~C~~, which plane lights do, and had almost the intensity of burning magnesium. The flashed in all different places on this thing in all sorts of combinations and very irregularly and very rapidly.

Then the thing headed north until it was over the arb or the farms behind the arb. Then it seemed to turn and move almost straight west. After it got partway to Goodhue, it seemed to drop lower and start moving faster.

At the time when it turned west, we began to see a dark shape behind the lights. When it appeared to drop in altitude and speed up, we saw the shape definitely. It was cigar-shaped--a variety of different shapes would have looked like that at that angle--and looked black against the twilight sky.

It was flying just above the treetops. Just before it came to a taller tree, the main blinking lights seemed to be on the back. When it came from behind the tree, most of the flashing lights were around the front end. Its shape was even more definite at that point.

Then we picked up a lighted strip running along the length of the craft. This was a soft, reddish-orange light and didn't flash. As we saw this strip of light, the flashing lights started flashing all over the thing, making it hard to watch. The 3 of us have slightly different impressions of this strip of light - portholes? -- because of differing eyesight. I saw [redacted] -- I'm sure about the right side (hind-end) because there were too many lights on it. Dave saw [redacted], and Sue saw [redacted] -- I'm sure about the front end. [redacted] ETC.

It was still dropping lower as it moved west. Finally, it disappeared behind the Hackaton watertower at the second crossing - about 2 miles from the horizon (a hill and trees) - , disappeared behind 2 tall towers, and never came from behind them. This happened at about 5:30 (but watermen, of course, didn't agree), so the whole thing took about 7 or 8 minutes.

There was no sound at all during any of this, and it was the kind of light when any noise would have carried perfectly. No plane sound or jet sound or anything. We never saw any wings either.

During its last couple minutes around the water tower it seemed a bit smaller than a jet does at a half mile and was moving about the speed a jet a half mile away moves as it's coming in for a landing (as I remember driving past O'Hare). Dave's roommate suggested that maybe it was 10 to 30 miles away coming in for a landing at the Minneapolis International Airport. But no ordinary plane would show up that large at that distance. Either this thing was big and within a mile or so of us or it was something unbelievably huge. He phoned the Northfield Airport north of town, and they said the last plane in the area had landed at 5:30 - 20 minutes before we saw this thing in the east. As far as we can determine from topographic maps, the area where this thing disappeared is too hilly and full of river to contain a private airstrip.

Dave has been in the Ground Observer Corps, and he says he's never seen a plane or plane lights that looked and acted like this.

I suppose another possibility might be that it's a weather balloon or something of that sort, maybe belonging to that place north of Fort Field that produced Echo. But do weather balloons have lots of flashing lights and something like portholes?

Accompanying the thing with us were 2 fresh girls. Unfortunately, they were so scared that their reports of the thing are completely unreliable. For instance, they claim that the thing took 20 minutes to descend through the sky and that it hovered over the lakes for 5 minutes. We aren't sure exactly how long we watched the thing, but we do know that it was under 10 minutes. We're afraid to report

this thing because the great discrepancies between the stories of 2 panic-stricken freshmen and the 3 of us, who stayed remarkably calm and took notes as soon as we got ahold of paper, will probably cause the whole thing to be discredited.

But we did see something, and it's something that none of us has ever seen before.

There were about 10 other people who saw the thing, but only these 2 girls stayed around for the whole show and left us their names. Everyone else glanced at it, said "how unusual" and went to dinner.

We called the Northfield airport; the phone operator tried to get us through to the Minneapolis airport but couldn't — we're going to try them again today to see if they have flight plans for anything going over this area. We called the local civil defense people, but if they were interested, they sure didn't show it; I guess they have to prevent panic. We may contact Fort Snelling if the Cities airport says no plane was around here. Sue has written to her dad to see if he has any contacts that might be useful to us.

After the thing disappeared behind the trees, the 3 of us ran up the hill behind Goodhue and to the college farm and watertower. When we got to the top right in the area where the thing disappeared, we saw a huge dark shape with lights in a field behind some bushes. Panic! Oy! We bravely crept up on it and found — a tractor and combine. Relief! But the combine and tractor weren't what we saw flying across the sky. We walked quite a ways down the highway looking for the thing or a landing strip, but no luck, so we went back to the campus and started making phone calls.

Tonight we're going to be out there with camera and binocs for a long time in hopes (?) that it will come again. I think we're all so scared that we'd prefer it doesn't come again, but in the interests of science...

Sunday Dave and I saw 3 unusual things. Two of them were bright white, blinked while moving across the sky, then disappeared in midair. The third was bright white, moved halfway up into the sky, then just stood still there for as long as we were out. More excitement!

Other than being very shook, we're all fine. Alice is due to come tonight. Could you please send a photocopy of this letter to me? And do you think we should notify someone? Who? I've got to run to class now. Don't worry about us — we'll be careful viewing these things — we'll carry our waterpistols!

Much love, Carol

Dear folks,

Hi! How are y'all, besides busy? I'm feeling

quite good. I'm

studying for my

midterm in

Shakespeare's

histories. After that we start the comedies. In psych

we're studying learning and language, which is cool.

Will take my psych 10 final in 2 weeks. Book, book!

Will be sort of up in the air over our UFO. We're not so

sure it's still unidentified. Schjeldahl says they were

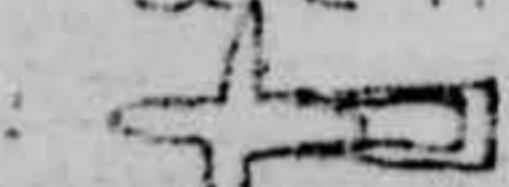

testing on the 13<sup>th</sup> and 15<sup>th</sup> but not the 14<sup>th</sup>.

Problem: the Air Force says they have been fly-

ing C-119's around, <sup>with their tails</sup> without tails at a height of

250 - 300 feet. Question: could you fly a C-119 with-

out a tail and at that height? A C-119, Dave

says, is one of these funny things! 

Would Dr. Hynek be able to tell you if a plane in

such condition could be flitting around at that height?

And could he find out if one of them definitely flew

over the NE corner of Northfield? If what we saw

was just a C-119, we don't want to waste Dr. Hynek's

time or ours with the questionnaires. Would he be

willing to investigate the possibility of our thing being

a plane?

Department of Defense; Air Force  
Washington, D. C.

Gentlemen:

What is the truth about unidentified flying objects? Are they interplanetary, intergalactic? Also is it true that two space vehicles were found, geometrically perfect and enclosed in them were men?

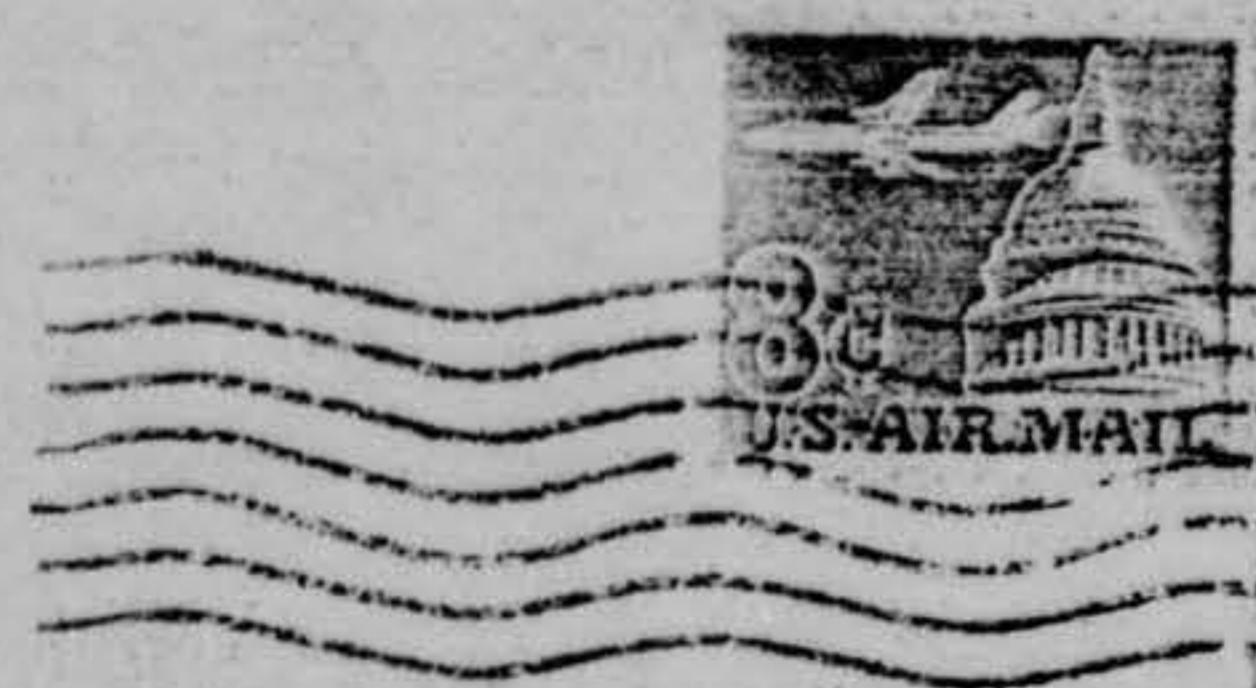

I, myself, and a friend have spotted three that are not from this planet. We are certain of this because we observed them through the help of my 175X refractor telescope.

Yesterday, October 15, a shiny object was spotted moving slowly, straight, ~~at~~. Also previously, at night, moving slowly across the sky: ~~at~~ <sup>at</sup> ~~at~~ lights.

Thank you.

Observer, Amateur Astronomer,

NICAP MASSACHUSETTS INVESTIGATING SUBCOMMITTEE  
13 Friend Court  
Wenham, Massachusetts

SUBJECT: UFO Report - 2 October 1965 - Salem, Massachusetts

DATE: 26 October 1965

FROM: Raymond E. Fowler  
Chairman: NICAP Massachusetts Investigating Subcommittee

TO: NICAP  
Washington, D.C. - Attention: Richard Hall

CC: PROJECT BLUEBOOK

The attached is a UFO Report concerning a sighting of a cigar-shaped UFO hovering over the New England Power Plant in Salem, Massachusetts by James Centorino on October 2, 1965 at 3:20 PM EDT. The U.S. Coast Guard received reports from other people in the area concerning a UFO but refused to give out their names and addresses. An addendum will follow if other witnesses are identified and are willing to report to NICAP.

Respectfully submitted,

*Raymond E. Fowler*

## UFO SUMMARY REPORT

UFO REPORT - 10/2/65

WITNESSES:

[REDACTED] (Age 16)  
Salem, Massachusetts  
Junior Year, St. John's Prep.  
Duxbury, Massachusetts  
(Father - Professor, Meteorology)  
(Salem State Teacher's College)

Many unknown witnesses  
Input-U.S. Coast Guard,  
Salem, Massachusetts

TIME:

1. [REDACTED] Salem, Massachusetts
2. Duxbury Boulevard and Ware Avenues

TIME:

3:20 PM EDT

BACKGROUND:

The Salem Evening News carried the story of this UFO Sighting and mistakenly stated that Professor Gerotorino was the witness.

WITNESS ACCOUNT:

David was riding up [REDACTED] Avenue to his home when he noticed 3 sets of lights over the three chimneys of the N.E. Power Station, [REDACTED] Avenue in Salem, Massachusetts. Each chimney had 2 lights on top but the three lights puzzled him as they were above the chimneys. He thought he could see a dark shape below them so he bicycled up the street for a closer look. He turned down the street from the power plant which sets several yards from behind fence. There, bearing over the chimneys was a dark cigar shaped object having a slight kink toward the rear and carrying a bright white light on each end.

DETECTING DATA:

3 stacks of [REDACTED] 3 white light [REDACTED]  
[REDACTED] moved into SSW  
[REDACTED] 3 smoke stacks on Power Station. Each  
stack has two red lights.  
[REDACTED] U.S. Coast Guard has perfect  
view of this Power Station but  
said they knew of no one at the  
station who observed the UFO.

The object remained in orientation 5 minutes. There were a few thin wispy clouds. Glass in one's eyes was not does not  
allow to clearly see. The man at the Power Station said he saw it first. Worker and set at  
3:20 PM. The object was a luminous disc of a silver color held  
in hands length. The approximate size agreed exactly with the previous  
reports. The disc had 2 red lights below it and no the spot where the  
lights were located was a bright white light. The object was  
about 1000 feet high and 1000 feet wide. The object was of 2 1/2 minutes  
duration in total. At 3:25 PM, when it left, the object was

UFO SUMMARY SALES  
UFO REPORT - 10/2/65

WITNESSES: [REDACTED] (age 16) Many unknown witnesses  
[REDACTED] Input-U.S. Coast Guard,

Danvers, Massachusetts  
(Father - Professor, Meteorology)  
(Salem State Teacher's College)

FIGURES: 1. [REDACTED] Salem, Massachusetts  
2. [REDACTED] and [REDACTED]

TIME: 8:20 PM EDT

BACKGROUND:

The Salem Evening News carried the story of this UFO Sighting and mistakenly stated that Professor Contorino was the witness.

SIGHTING ACCOUNT:

James was riding up [REDACTED] Avenue to his home when he noticed two bright white lights over the three chimneys of the N.E. Power Station, [REDACTED] in Salem, Massachusetts. Each chimney has two red lights on top but the white lights puzzled him as they were above the chimneys. He thought he could see a dark shape between them so he bicycled to the street for a closer look. He rode across the street from the power plant which sets several hundred feet behind fencing. There, hovering over the chimneys was a dark cigar shaped object having a slight hump toward the rear and carrying a bright white light on each end.

REPORTING DATA:

Sight: [REDACTED] white light →  
Object: cigar-shaped  
AMP: [REDACTED] moved into SSW  
Info: 3 smoke stacks on Power Station. Each stack has two red lights.

Notes: U.S. Coast Guard has perfect view of this Power Station but said they knew of no one at the station who observed the UFO.

This sighting time was an estimated 5 minutes. There were a few clouds in the sky. James walked home alone but does not remember crossing the woods. The moon was at first quarter and set at 9:15 PM. The object was the size of a silver dollar held at arm's length. It was a solid white light with the previous 3 sightings had been solid white lights except for the spot where he saw a faint blue light. The object was 2 1/2 diameters in diameter and had a faint blue light at the front end. The object
